Message from the LMFPA President

On behalf of the members of LMFPA it gives me great pleasure to deliver the President's message for the 8th year celebration of the Association.

Year 2013 was indeed a challenging one for many microfinance practitioners who were earnestly expecting a regulatory framework for the sector. During this year LMFPA shifted its focus a lot on bringing the proposed Microfinance Act being implemented. The latest draft had incorporated much of the feedback from LMFPA and positive reception was found from majority of stakeholders of the sector and it was also approved by the Cabinet to be presented to the Parliament during the course of the year. LMFPA also addressed all the members of Parliament and stakeholders through its publication "Microfinance for Development & Equity" highlighting the importance of a prudential regulatory system and held many discussions with the regulators and politicians both government and opposition yet the enactment of Microfinance regulation still seems elusive. However, the delay in policy decision making should not deter our relentless service of uplifting the low income segment of the population.

With the view of improving the microfinancsector operations, LMFPA had discussions with several organizations during the year which would later translate into successful programmes in 2014. Discussions with Insurance Board of Sri Lanka were held to promote micro insurance in the sector. LMFPA also had discussions with the Institute of Chartered Accountants to implement accounting standards for the microfinance industry. And also there were discussions with HelpAge Sri Lanka to promote the services of microfinance to the senior citizens of the country.

LMFPA greatly appreciates the financial assistance rendered by Plan Sri Lanka in organizing several Training of Trainer programmes on Financial Competency and & Life Skills Improvement which were held in Colombo, Ratnapura and Matara. The programmes were focused as a balanced approach to see the social, economic and environmental factors through the lens of financial value and was positively received by all the participants..

I take this opportunity to convey my sincere appreciation to our members, stakeholders, partners, board of directors and staff for their continued dedication and support towards the successful sustainability of LMFPA every year.

S.W. Kiriarachchi Hony President – 2013/2014

Major Activities during 2013/2014

Microfinance Review - Sri Lanka: Performance & Analysis Report 2012

For the 3rd consecutive year LMFPA completed its annual publication titled "Microfinance Review Sri Lanka: Performance & Analysis Report". The publication will serve as a sector overview as it includes data of major stakeholders in the industry irrespective of LMFPA membership. It is the LMFPA's expectation that this publication, like its predecessors will enable our stakeholder organizations to enhance their visibility for effective advocacy on issues affecting the growth and expansion of the microfinance industry.

Translation of the Universal Standards of Social Performance Management (USSPM)

Developed through broad industry consultation, the Social Performance Task Force (SPTF) Universal Standards for Social Performance Management are a set of management standards that apply to all microfinance institutions pursuing a double bottom line. Meeting the standards signifies that an institution has strong social performance management (SPM) practices. To achieve this, an MFI must:

- 1. Define and monitor social goals
- 2. Ensure, board, management and employee commitment to social goals
- 3. Treat clients responsibly
- 4. Design products, services, delivery methods and channels that meet clients' needs and preferences
- 5. Treat employees responsibly and
- 6. Balance financial and social performance

LMFPA was entrusted by Microfinance Centre Poland to translate the USSPM manual into Sinhala and Tamil. The translations were duly completed and distributed to all the members of LMFPA. The translations were also posted on the LMFPA website.

Participation in the Asia Conference on Financial Inclusion and Financial Literacy

Several senior officials from LMFPA were invited to the Asia Conference on Financial Inclusion and Financial Literacy organized by the Central Bank of Sri Lanka in collaboration with the Commonwealth Secretariat on the 19th and 20th March 2013. The objective of the conference was to provide a comprehensive knowledge on principles and best practices of financial inclusion fostering financial literacy programmes and share experiences among participants in this respect.

Enabling Dialogue in Trincomalee

LMFPA extended its outreach in organizing Enabling Dialogues by organizing one in Trincomalee on 3rd May 2013. The theme was on the Universal Standards for Social Performance. Around 40 participants were present for the programme which was sponsored by Plan Sri Lanka.

Partnership with CEPA on research study

The Centre for Poverty Analysis (CEPA) partnered with LMFPA to conduct a research study on female entrepreneurs' access to financial services. This study which is sponsored by the World Bank purposes to build more knowledge with a gender perspective and facilitate cross regional lesson learning and dialogue that can influence change among in-country stakeholders. This is the first research conducted by LMFPA which will greatly benefit microfinance practitioners in product development and market penetration giving special attention to women empowerment and female entrepreneurship. The objectives of this study were to:

- Identify constraints as well as approaches that have enhanced female entrepreneurship and productive use of finance in Sri Lanka
- Present actionable recommendations that can be integrated in development operations which will include technical design elements based on best practices, implementation and target mechanisms, suggested approaches and guiding principles that can be used by development practitioners during design and implementation of such development projects.
- Dissemination materials and activities that will primarily target development practitioners. Efforts will also be made to target policy makers in Sri Lanka's rural development and microfinance sectors

LMFPA provided technical assistance for the research and coordinated the field visits of CEPA representatives. The final report will be issued by World Bank with the reports of other countries.

Discussions with Regulators and Political Figures

During 2013 LMFPA focused a lot of attention to meet with key officials, and political figures to lobby for the implementation of the proposed Microfinance Act. Below are some pictures of such meetings.

Enabling Dialogue on Microfinance for Senior Citizens with Help Age Sri Lanka

Protection of Rights of Elders Act No. 09 of 2000 provides a provision not to discriminate senior citizens purely by their age, when providing any service, including finances. Nevertheless, financial institutions in Sri Lanka have not taken any serious interest to provide financial support to needy senior citizens. Instead, banking institutions have drawn mechanisms to obtain deposits from senior citizens while paying only a marginally high interest rate. It is the right time that financial institutions in Sri Lanka align its focus to this ageing population, reap benefits and create win - win situations.

These were the key issues that were discussed during the Enabling Dialogue LMFPA organized in association with HelpAge Sri Lanka on 29th January 2014 at the Sri Lanka Foundation Institute in Colombo. The workshop opened the lid on the devastating plight of the old people in Sri Lanka where they are discarded; throwing out the vast knowledge and experience that would have been contributed to the economic prosperity of the country.

Mr. Bisowela Gunasekara, Director of LMFPA stressed that the government assistance for this segment should increase. This is more evident when it comes to senior citizens as banks show them the door when it comes to lending for senior citizens.

"Banks are keener to get the senior citizens to invest their pensions in fixed deposits," he said and added that banks have forgotten that the knowledge and entrepreneur skills of senior citizens and its mostly the informal and micro finance segment that help senior citizens to obtain credit.

Mr. Dayal Perera, Programme Director of HelpAge said that in Sri Lanka's population of 20.2 million, 12.4 per cent or more than 2.4 million people are aged over 60, and when compared to other countries, it is a very high figure. He said that the Sri Lankan figures are higher than in the South Asian countries and some other countries while the female population of 60 years plus is increasing. He said that if the country does not use the talents, the knowledge and experience of these people, then they become dependent. Thus when they seek family assistance they are considered a burden to society and the world.

Dr. S.P. Premaratne, Senior Lecturer, Department of Economics, University of Colombo speaking on "Micro Finance Model for Senior Citizens" conceded that there has been no research carried out in Sri Lanka to find the number of people above 60 years who have benefited by micro finance or any sort of lending scheme.

He said that most of these senior citizens die of despair due to heart attacks and other such diseases because they feel no security of their future and there is no guarantee of continuing their income.

The presentation by Berendina Microfinance on their partnership project with HelpAge Sri Lanka in extending microfinance services to senior citizens was encouraging to other member organizations who saw the potential of this neglected segment of the population.

Workshop on International Financial Reporting Standards

Following the discussions LMFPA had with the Institute of Chartered Accountants of Sri Lanka (ICASL) in 2013 to develop accounting standards for the microfinance sector a workshop was conducted for LMFPA members on 20th February 2014 to assess the current accounting issues in the Sri Lankan Microfinance sector. The current microfinance sector still largely remains unregulated. Many small and medium scaled MFIs operating in this sector are being left to self regulate themselves for their continuity and sustainability. In doing so it's important for MFIs to adopt best practices and principles in maintaining their portfolio records and bookkeeping records. The ICASL had stated that accounting standards can only be drafted under a regulatory environment. Following the workshop the ICASL is in the development of an accounting principles guideline for Sri Lankan MFIs to follow.

Discussions on Micro Insurance

The benefits of Microfinance are universally acknowledged and the practice of microfinance is already common in developing countries. In comparison however, micro insurance which has the potential to significantly aid millions of poverty stricken people, has received limited attention in Sri Lanka. Therefore LMFPA held discussions with the Insurance Board of Sri Lanka (IBSL) in March 2013 to address this issue by creating more awareness on micro insurance among Microfinance Institutes. In addition to this LMFPA had discussions with some insurance providers and reinsurers to introduce a micro insurance product to the sector.

(Lto R) – Mrs. Indrani Sugathadasa (Chairperson IBSL), Mr. Channa Jayatilleke (Past President LMFPA) & Mr. Imran Nafeer (Hon Secretary LMFPA)

Following this discussion the IBSL organized a workshop on Micro Insurance together with LMFPA at the Taj Samudra Colombo in May 2014. The objectives of the workshop were:

- 1. To share successful empirical evidences and recent developments in Microfinance
- 2. To build up an understanding of the relationship between Microfinance and Micro Insurance sectors and
- 3. To discuss the way forward for the microfinance sector in Sri Lanka.

The resource person for this event was Dr. Antonis Malagardis, Programme Director of GIZ Regulatory Framework Promotion of Pro-poor Insurance Markets in Asia (RFPI Asia). The workshop drew many stakeholders of the Sri Lankan insurance industry as well as microfinance practitioners. At the conclusion of the workshop the participants decided to form a committee comprising representatives from IBSL, LMFPA, Insurance Association and Insurance companies to steer the establishment of a regulatory framework for micro insurance in Sri Lanka.

"Wealthy Family" Training of Trainers Programmes with Plan Sri Lanka

LMFPA together with Plan Sri Lanka conducted a series of Training of Trainers Programme titled "Wealthy Family" in Colombo, Ratnapura and Matara. The training was conducted by Ms. Subodhanie Dissanayake, former Asst. Deputy Country Director of Plan Sri Lanka.

Through colourful visual graphics depicting a unique storyline of fictitious characters, the participants were able to grasp the concept of Financial Competency of the household, community and society at large without the much usage of technical jargon as the materials used were developed in simple language. The content was well received by all the participants who gave very positive feedback to LMFFPA and Plan Sri Lanka for organizing the programme. This encouraged LMFPA to conduct similar training programmes together with Plan Sri Lanka during the year. Therefore after conducting 02 successful "Wealthy Family" Training of Trainers Programme in Colombo, LMFPA organized two more programmes last November and December in Ratnapura and Matara respectively. Several trainers from the previous programmes in May and September 2013 facilitated the sessions for the 3rd and 4th batch of trainers. LMFPA received positive feedback from all the participants.

Credit Mapping for LMFPA Members

LMFPA organized a Focused Group Discussion on Micro Credit Mapping on the 24th of January 2014 at the Rural Development Training & Research Institute in Colombo. The objective of this discussion was to collect member feedback to design a comprehensive borrowers mapping for future references to support the lending decisions of credit managers. The pilot programme will be initiated from the Kegalle district.

The proposed map will provide information on:

- 1. Client segregation to have an idea on multiple borrowings
- 2. Demographical penetration
- 3. Client saturation

Credit Managers of the particular district will benefit from obtaining these details to reduce over-indebtedness and focus more on Social Performance Management. New entrants to the microfinance industry can also benefit from this as they can find reference on where to perform market penetration and the volume. It also must be stated that upon the successful implementation of the pilot project, LMFPA looks forward to expand this venture into national level.

Credit Information System for LMFPA Members

During several discussion forums of LMFPA the need for a Credit Information System (CIS) was raised as one of the methods to curb the issue of multiple borrowing and over-indebtedness. To address this issue LMFPA has decided to develop a Credit Information system for its members. A workshop in parallel with the one on Credit Mapping was held to get member feedback. The participants pointed out that primary data that would be needed from such a system would be:

- · Client NIC Number
- Full name of client
- · Number of loans
- Loan amount
- Current outstanding
- · Arrears amount
- · Number of Days in arrears

The confidentiality of these data is of utmost priority hence LMFPA sought seek legal counsel in this regard. Furthermore LMFPA will look into further consultation from IT experts for system design. LMFPA intends to pilot the CIS system from the Kegalle and Batticaloa district and further expand into national level.

Code of Conduct for LMFPA Members

In January 2014, a code of Conduct was developed for LMFPA members to ensure that the highest level of professionalism, ethical conduct and good governance are observed by Microfinance practitioners and their employees. A workshop was organized on 13th February 2014 to obtain member feedback and following the events that transpired in Batticaloa in April 2014; this Code of Conduct was further modified and is now implemented. The guidelines cover 9 areas namely:

- 1. Maintaining Integrity
- 2. Maintaining Quality of Service
- 3. Avoiding Over-indebtedness
- 4. Maintaining Transparency
- 5. Conducting of Fair Practices
- 6. Privacy of Client Information
- 7. Integrating Social Values into Operations
- 8. Developing a Feedback Mechanism and
- 9. Maintaining healthy competition

Any breach in the Code of Conduct by an MFI will be reviewed by the Ethics Committee and Professional Ombudsman appointed by LMFPA.

Key initiatives to resolve Microfinance conflict in Batticaloa

(Lto R) – Mrs. Renuka Rathnahewage - CEO Sewa Finance, Mr. Anura Atapattu - Director LMFPA, Mr. M. M. Attanayake - CEO Lak Jaya Microfinance Mr. Prince Nayagam - Director LMFPA, Mr. Charitha Ratwatte - Managing Director SLBDC, Hon. Minister Basil Rakapakse Mr. S. W. Kiriarachchi - Hony. President LMFPA, Dr. Harsha Kumara Nawaratne - Chairman Sewa Finance & Sevalanka Foundation Mr. Yasitha Munasinghe - Manager LMFPA

The overnight restrictions imposed by the Government authorities in the Batticaloa district in early April set abuzz in the microfinance sector with fears of an imminent major crisis. LMFPA sought to address this situation as swiftly as possible. With the assistance of Dr. Harsha Kumara Nawaratne, Chairman of Sewa Finance and Sevalanka Foundation the LMFPA had discussions with the Minister of Economic Development Hon. Basil Rajapakse on 10th April 2014 with the objective of resolving the issues pertaining to Microfinance in Batticaloa. The Hon. Minister was very attentive and offered his immediate support. The Hon. Minister advised there be an open dialogue between the District Secretariat and LMFPA to resolve the current situation in Batticaloa and proceeded to speak with the District Secretary of Batticaloa and asked her to have a dialogue with LMFPA. The Hon. Minister also promised to send a representative from his ministry to this meeting. In addition to this the Hon Minister also welcomed LMFPA's involvement and feedback in the future discussions with regards to the proposed Microfinance Act. He also invited LMFPA to send its proposal to work closely with the Divineguma Project.

Following the meeting with the Hon. Minister, LMFPA had a successful meeting with the Government Agent of Batticaloa on 23rd April 2014. The association was able to come to a mutual agreement on several items of the guidelines that the GA had issued to microfinance practitioners earlier. The discussion with the GA was after the meeting LMFPA had with member representatives on the previous day where LMFPA and members operating in Batticaloa came to a consensus on the terms and conditions to be discussed with the GA.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LANKA MICRO FINANCE PRACTITIONERS ASSOCIATION

Report on the Financial Statements

We have audited the accompanying financial statements of Lanka Micro Finance Practitioners' Association, which comprise the Statement of financial position as at 31 December 2013, and Statement of comprehensive income, and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Financial Statements

The Members of Board Management are responsible for the preparation and fair presentation of these financial statements in accordance with Sri Lanka Accounting Standard for Small and Medium-Sized Entities. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Scope of Audit and Basis of Opinion

We conducted our audit in accordance with Sri Lanka Auditing Standards, which require that we plan and perform the audit to obtain reasonable assurance about whether the said financial statements are free of material misstatement.

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements assessing the accounting principles used and significant estimates made by the Board of Management, evaluating the overall financial statement presentation.

We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit. We therefore believe that our audit provides a reasonable basis for our opinion.

Opinion

In our opinion, so far as appears from our examination, the Association maintained proper accounting records for the year ended 31 December 2013 and the financial statements give a true and fair view of the Association's state of affairs as at 31 December 2013 and its deficit and cash flows for the year then ended in accordance with Sri Lanka Financial Reporting Standards for Small and Medium-Sized Entities.

For the year ended December 31, 2013

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 General Policies

2.1.1 Basis of Preparation

The balance sheet, statements of financial activities and the cash flows, together with the Accounting Policies and Notes of the financial statements as at December 31, 2013 and for year then ended, comply with the Sri Lanka Statement of Recommended Practice for Not-for –Profit organisations including Non Governmental Organisations issued by the Institute of Chartered Accountants of Sri Lanka.

The financial statements have been prepared on a historical basis.

2.1.2 Taxation

(a) Current Taxes

Income tax is provided in accordance with the provision of the Inland Revenue Act No.38 of 2000 section 102 of the Inland Revenue Act No. 10 of 2006 and amendments thereon; and based on the elements of grants received after April 01, 2005.

For the year ended December 31, 2013

2.2 Accounting for the receipt and utilization of funds

2.2.1 Funds

(a) Unrestricted Funds

Unrestricted funds are those that are available for use by the Organization at the discretion of the Board, in furtherance of the general objectives of the Organization and which are not designated for any specific purpose.

(b) Restricted Funds

Restricted Funds are the funds where grants are received for use in an identified project or activity, such funds are held in a fund account and transferred to the statement of financial activities account to match with expenses incurred in respect of that identified project. Unutilized funds are held in their respective fund accounts and included under accumulated fund in the balance sheet until such time as they are required. Funds collected through a fund raising activity for any specific or defined purpose are also included under this category. The activities for which these restricted funds may be and are being used are identified in the notes to the financial statements.

(C) Designated Funds

Unrestricted funds designate by the board to a specific purpose identified as designated funds. The activities for which these funds may be used are identified in the life of the assets.

2.2.2 Grant and subsidies

Grant and subsidiaries related to assets are generally deferred in the balance sheet and credit to the statement of financial activities over the useful life of the assets.

2.3 Valuation of Assets and their Measurement Bases

2.3.1 Receivable

Receivables are stated at the amounts they are estimated realized.

2.3.2 Cash and Cash Equivalents ...

Cash and cash equivalents are defined as cash on hand, demand deposits and short term highly liquid investments, readily convertible to known amounts of cash and subject to insignificant risk of changes in value.

For the purpose of cash flow statement, cash and cash equivalents consist of cash on hand and deposits in banks.

For the year ended December 31, 2013

2.3.3 Property, Plant and Equipment

a) Cost and Valuation

All items of property, plant and equipment is recorded at cost less accumulated depreciation.

b) Restoration Costs

The provision for depreciation is calculated by using a straight line method on the cost of all property, plant and equipment in order to write off such amount over the following estimated useful lives by equal installments. The annual rates of depreciation currently being use by the organization are;

c) Depreciation

As a result of determining depreciation charge separately for significant parts, and beginning to depreciation items of Property, Plant and Equipment from the time they are available for use (rather than adopting method whereby property, plant and equipments are depreciated fully in the year of disposal, with no such charge being accounted for in the year of acquisition).

Office Equipment

Over 5 Years

Computer and software

Over 5 Years

Furniture and Fittings

Over 10 Years

2.4 Liabilities and Provisions

2.4.1 Provisions

Provisions are recognized when the organization has a present obligation (legal or constructive) as a result of a past event, where it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

a) Defined Contribution Plans - Employees' Provident Fund and Employees' Trust Fund

Employees are eligible for Employees' Provident Fund contributions and Employees' Trust Fund contributions in line with the respective statutes and regulations. The Company contributes 12% and 3% of gross emoluments of employees to Employees' Provident Fund and Employees' Trust Fund respectively

For the year ended December 31, 2013

2.5 Statements of Financial Activities

2.5.1 Income recognition

(a) Incoming Resources

Income realized from restricted funds is recognized in the statements of financial activities only when there is certainty that all of the conditions for receipt of the funds have been compiled with and the relevant expenditure that it is expected to compensate has been incurred and charged to the statement of financial activities. Unutilized funds are carried forward as such in the balance sheet. All other income is recognized when the society is legally entitled to use of such funds and the amount can be quantified. This would include income receivable through fund raising activities.

(b) Others

Other income is recognised on an accrual basis

Gains and losses arising from incidental activities to main revenue generating activities and those arising from a group of similar transactions which are not material, are aggregated, reported and presented on a net basis.

2.5.2 Expenditure Recognition

Expenses in carrying out the projects and other activities of the organization are recognized in the statement of financial activities during the period in which they are incurred. Other expenses incurred in administering and running the society and in restoring and maintaining the property, plant and equipment to perform at expected levels are accounted for on an accrual basis and charged to the statement of financial activities. The society has adopted the "Function of expense" method to present fairly the elements of organization activities in its statement of financial activities.
